

## Responsible Care

2016

2017

## Results, Activities, Projects

Evert de Jong, ECTA Responsible Care Coordinator

### Issue Teams

- Management of Change (Issued by end 2016)
- Cleaning of Silotanks (Issued by end 2016)
- Safe (Un)Loading of Silotanks (Issued by end 2016)
  
- Impact of Refugees on Logistic Safety & Security (recent)

*Together with our members' representatives we show our commitment the Responsible Care principles.*

### RC Presentations

- Cefic Annual SQAS/ESAD General Assembly (2-6-2016)
- ECTA Responsible Care Workshop (22-9-2016)

*Staying in touch with our members and our customers*

### Continued evaluation and consideration of RC Aspects in Logistics:

- Membership of Cefic's SQAS Technical & Accreditation Committee
- ECTA's Technical & Responsible Care Committee
- Gathering and consolidating of RC members' annual improvement and KPI reports
- ECTA's annual report

*Staying in touch with our members and our customers,  
Promote ECTA's Responsible Care initiative*

## 2017 Objectives:

- Continuity
- Calibration
- Fine-tuning

- Continuity  
We want to ensure that we stay on target with all our programs
- Calibration  
We want to ensure that the quality of our system and tools are in line with the standards they are related to (within acceptable margins)
- Fine-tuning  
We want to know if adjustment of our system and tools is required to achieve a better performance

### Continuity / Calibration / Fine-tuning requests (examples)

- Evaluate the McKinnon Fuel-Based figures for CO2 emission (various 2016 requests – M Twisk, S Beddegenoodts, J Verlinden)
- Look at options for smaller size companies to join ECTA and ECTA's RC program (recent requests)
- Continued requests for mutual recognition of various audit schemes

*We are looking for a good mix of quality and efficiency*

### New Issue Teams

- Impact of Refugees on Logistic Safety & Security (start end 2016), Lead: ECTA
- Guideline for Safe Storage & Handling of Dangerous Goods containers, Lead: Cefic
- How to better cope with the structural driver shortage and take more effective measures for relief

*In line with our Continuous Improvement objectives*

### The Technical & Responsible Care Committee:

Bernhard Haidacher, LKW Walter  
Michael Koch, Bertschi  
Patrick Weiskopf, GCA  
Evert de Jong, ECTA RCC

Peter Viebig, Talke  
Steve Rowland, Suttons  
.....

- Annually 4 T&RC meetings ( 3 + 1)
- Membership in Issue Teams
- Input by members
- Managing Continuity / Calibration / Fine-tuning
- Input from / Approval by the ECTA Board

ECTA's Responsible Care program – some future challenges:

- Remain a proactive force for our members
- Look for alignment possibilities of ECTA's RC components with current best practices of other (product trade) associations and other chemicals related initiatives, e.g. ISOPA, PlasticsEurope, etc.

*For which the T&RC Committee needs your continued support!*
