

ECTA RC PLAN 2018

Find below the ECTA 2018 focus area's as part of the ECTA Responsible Care Plan

<p>Actively participate in the 2018 revisions of all SQAS Modules in close cooperation with Cefic.</p>	
<p>Participate in the refresher training of accredited SQAS Assessors.</p>	
<p>Evaluate together with Cefic experts the contents of ECTA's Best Practice Guideline on CO2 emission calculations and consider revision.</p>	
<p>Communicate News and Updates on Responsible Care items via the quarterly Newsletter</p>	
<p>Organize ECTA's Annual Responsible Care Workshop</p>	
<p>Revision of ECTA's Responsible Care KPI Reporting Forms</p>	

Nota bene:

While ECTA considers SQAS as the best available audit system for the Chemical Logistics, on request of the ECTA board, a formal SQAS position paper was distributed in Q4 2018 with the objective to improve the SQAS implementation process when relaunching the SQAS revision 2019. In addition, an SQAS survey got organized across its ECTA members.
